

# STERGIOPOULOS George

Cybersecurity, ICS Security and Data Privacy Consultant

Assistant Professor of Cybersecurity

Dept. of Informatics

Athens University of Economics and Business

e : [geostergiop@aueb.gr](mailto:geostergiop@aueb.gr) |

## Work Experience

---

### - Assistant Professor - Cybersecurity

**Athens University of Economics and Business, Greece**

June 2025 - Present

- Published more than **50 articles** in IEEE, Springer and other international journals and conference proceedings.
- **Research work** focuses on Industrial Systems Security (network, malware and attack prevention), Critical Infrastructure Protection (modeling and architecture for cybersecurity), IT and Network Security (malware communications, data leakage prevention avoidance), and Applied Cryptography.
- **R&D positions** include being the Principal Investigator and Lead Researcher for various projects and funds, including a project from the Google DNI Fund alongside University of Piraeus, Piraeus (Greece) implementing secure proximity testing cryptographic protocols for online distributed users (“WordofMouth” (WoM) project) and EU Horizon 2020 Oil and Gas industrial security and safety projects.

### - Information Security Consultant

**Contractor – Sole proprietorship**

Mar 2012 – Present

- Delivered more than **50 projects** for both the public and private sector, including banks, startups, finance companies, industrial system providers and public healthcare organisations.
- More than **14 years** of experience in IT/OT and Telecommunications cybersecurity projects, including Penetration Tests, Risk assessments and consulting for ISO 27001 ISMS development, IEC 62443, NIST 800 and relevant standardization using internationally approved methodologies (ITSRM, ITSMTES3, Pilar, MAGERIT, Octave).
  - Audits based on ISO27001, 62443-2, 62443-3 and relevant US NIST standards.
  - Solutions architect for mitigating cybersecurity vulnerabilities. Disaster Recovery and Business Continuity plan development for deploying within an Information Security Management System.
  - Assessing/consulting IT and dev teams during implementation of security measures based on OWASP, NIST and ISO 27000 series by identifying risks and proposing acceptable and mitigation strategies and technical solutions.
  - Risk analysis using MDCG 2019-16 Guidance on Cybersecurity for medical devices<sup>1</sup> includes a separate Annex specifically for mapping IT security requirements to NIS Directive Cooperation Group measures. The MDCG includes comprehensive references to risk assessment and impact assessment for operating environments that utilise medical devices.
  - Analysis of cyber-physical systems involving IT and building security management.
- GDPR compliance consultant
  - Managed and conducted more than 15 projects regarding Data Privacy and GDPR compliance for companies.

---

<sup>1</sup> <https://ec.europa.eu/docsroom/documents/41863>

- Data mapping, Data Impact Assessments (DPIA) and preparedness in accordance with GDPR.
- Penetration testing of information systems.
  - Red Teaming, binary exploitation, exploit & privilege escalation, web and mobile APIs.
- **Latest indicative experience and clients:**
  - *Greek National Cyber Security Authority – Ministry of Digital Governance (NCSA)*
    1. Cybersecurity Consultant – Assessment, analysis and development of the NCC, strategies, tools, roles and procedures. Analysis of current cybersecurity policy frameworks, (e.g. NISD, ECCC etc.)
    2. Development of new cybersecurity policies for the Greek government in response to NIS2 requirements and current trends
    3. Policy analysis /recommendations /guidelines /promotion of existing or emerging policies
    4. Policy research
  - *Intrasoft – NetCompany (subcontractor)*
  - *ICT Protect*
    1. Expert Consultant – Subcontractor.
  - *Hellenic Ministry of Digital Governance - General Directorate of Cyber Security*
    1. Project Manager – Consultant.
  - *Obrela Security Industries*
    1. Project Research Lead – ISO27001.
  - *UniSystems: Consultant - European EESSI interconnection w national systems*
    1. Assessment and consulting.
  - *Gas distribution company [Redacted]*
  - *Legal Council of the Hellenic State*
    1. Cybersecurity expert – GDPR and ISO 27001 compliance analysis.
  - *HEDNO – ΔΕΔΔΗΕ*
    1. Lead expert - ISO 27001 ISMS development for IT department
  - *International Civil Aviation Organization UN/ICAO – Digital Security Technologies*
    1. Expert Consultant – Cybersecurity audit.
  - *Legal Council of the State (NSK)*
  - *Εθνικός Φορέας Κοινωνικής Ασφάλισης (e-ΕΦΚΑ)*
  - *Διασύνδεση του Εθνικού οργανισμού παροχής υπηρεσιών υγείας (ΕΟΠΥΥ)*
  - *Ανεξάρτητη Αρχή Δημοσίων Εσόδων (ΑΑΔΕ).*
  - *GAC, UMA shipping companies.*
  - *TWI - Cybersecurity and Critical Infrastructure Protection Expert (Internal Contractor) – 101074008 — PANTHEON — HORIZON-CL3-2021-DRS-01*
    1. Cybersecurity/security engineering, solutions architect and consultant (cyber)security on system architecture and design, problem solving, vulnerability analysis and security.

#### - EU Cybersecurity Expert (External Contractor)

#### **European Union Agency for Network and Information Security (ENISA)**

- NIS2 Expert consultant providing support on the NIS2 – ECSF integration *Mar 2024 – Sept 2024*
  - Expert support for the Editorial of the user manual of the European Cybersecurity Skills Framework
- Expert support activities for the Infohub prototype *Aug 2024 – Nov 2023*
  - Expert support on activities for the development of the InfoHub prototype tool
- NIS2 Expert consultant providing expert editorial support on the ECSF *Nov 2022 – Jun 2023*
  - Expert support for the Editorial of the user manual of the European Cybersecurity Skills Framework
- Expert consultant on the assessment and support of the InfoHub ENISA Prototype *Aug 2022 – Nov 2022*
  - Expert support on activities for the development of the InfoHub prototype tool

- NIS Expert consultant on good cyber security practices under NIS 2.0 Directive *Feb 2021 – Apr 2021*
  - Stock taking of good cyber security practices in:
    1. Digital Infrastructures
    2. Health infrastructures / medical devices
      - EU reference labs
      - Research and manufacturing of pharmaceuticals
      - Research and manufacturing of medical devices
      - Public administrations (overlap with all other sectors)
    3. Space
- NIS Expert consultant for “Cyber security in the aviation sector” *Apr 2020 – Jul 2020*
  - Expert contribution on the Aviation transport sector and specifically on the NIS Directive implementation in the sector. Main goals and objectives:
  - Depict the current landscape on cybersecurity for the Aviation sector (activities/initiatives running in pan European level);
  - Identify the key stakeholders and potential mandate on cybersecurity and relevant initiatives;
  - List cybersecurity requirements deriving from other legal documentation.

- Assistant Professor - IT/OT Systems Security

**University of the Aegean, Greece**

*Mar 2021 – June 2025*

- **Research work** focuses on Industrial Systems Security (network, malware and attack prevention), Critical Infrastructure Protection (modeling and architecture for cybersecurity), IT and Network Security (malware communications, data leakage prevention avoidance), Risk Assessment and Data security and privacy.

- Network and Information Security Officer (Full-time)

**European Union Agency for Network and Information Security (ENISA)**

*Jan. 2019 – Jul. 2019*

- Contribute to the areas of the Core Operations Department 1 (COD 1) and specifically for the NIS Directive, critical infrastructure protection (CIIP) & the Healthcare sector.
- Lead author for report: “*Power Sector Dependency: Attacks Against Time Sensitive Services*”, July 2019.
- Project involving the Energy and the Medical sector.
- Data analysis, desktop research, technical analysis, and editorial tasks.
- Collect and analyze existing publicly available material on threats, risks, and trends in NIS and emerging technologies application areas.
- Support performing detailed threat and risk analysis on two emerging technology/application areas from sectors: Critical infrastructure dependencies, healthcare and the energy sector.
- Assist in the organization of workshops and teleconferences in the areas mentioned above.

- IT & Industrial Cybersecurity Subject Matter Expert (Contractor)

**Public Gas Corporation S.A. (DEPA), Greece**

*Jul 2019 – Dec 2021*

- Industrial cybersecurity and safety project manager. OT/Technical cybersecurity services on:
  - Security architect for gas infrastructures, both cyber and physical.
  - Lead expert for end-user IT/OT cybersecurity and design implementation of OT networks.
  - Evaluation and preparation of technical solutions for the implementation of new security and safety technologies.
  - Preparation and submission of technical deliverables.

## - R&D Principal Investigator – Lead Researcher

- **University of Piraeus, Greece**

*Oct. 2018 – July 2021*

- Lead researcher on “MELITY” project for cybersecurity of *medical devices*.
- Development of methodologies and integrated security solutions for the protection of medical pumps and relevant IOMT technologies used to provide / support in real-time healthcare (e-health).

- **Athens University of Economics and Business, Greece**

*May 2015 – Jan 2019*

- Lead researcher – “Weighted interdependency modeling for traffic flow congestion mitigation in the UK transportation system”.
- Modeling of congestion and flow analysis for protecting the Transportation Sector.
- Implementation (Java).

- **Google Digital News Innovation (DNI) Fund – University of Piraeus**

*Feb. 2017 – August 2017*

- Implementation of secure proximity testing cryptographic protocols for online mobile users.
- Lead researcher and R&D project manager for “Word of Mouth” (WoM) project at the University of Piraeus.
- Business Analysis & development (Android), business Impact analysis
- Technology utilization and implementation.

## - IT Network Administrator (Part-Time)

### **Athens University of Economics and Business, Greece**

*September 2012 - July 2015*

- Preparation and operation of a computer laboratory and internal networks (LANs, Virtual Machines etc.).
- Operate, maintain and extend Windows and Linux servers and virtual machines powering development, staging and production environments.
- Automate everyday tasks and develop solutions to ease infrastructure operations.
- Monitor and improve the infrastructure's performance and security.
- Participate in debugging sessions and contribute to infrastructure design.

## - Software analyst (Full-Time)

### **Hellenic National Defense General Staff, Cyber Defense Division, Greece**

*March 2011 – Nov. 2011*

- [Redacted]

## **Projects (indicative list, only 2018 onwards)**

---

### **III.A. TWI Research Center (TWI Hellas – HORIZON-CL3-2021-DRS-01-01)**

Researcher and Security Consultant Sept 2022 – Present

Project “Pantheon” HORIZON-CL3-2021-DRS-01-01: Pantheon – Improved understanding of risk exposure and its public awareness in areas exposed to multi-hazards.

Provision of research and consulting services in cybersecurity/critical infrastructure security, focusing on system architecture and design, problem solving, vulnerability analysis, and securing systems against cyberattacks, as well as the development of methods, quantification, and standardization of system security issues.

### **III.B. Expertise France – Group AFD - National Cyber Security Authority**

Cybersecurity Expert Apr 2023 – Present

1. 2023, Project "Contract for the provision of individual expertise services as part of an international cooperation project".
  - Provision of specialized services in cybersecurity research and development of cybersecurity assessment methodologies as part of the National Cybersecurity Strategy, in collaboration with the National Cyber Security Authority (NCSA).
2. 2024, Project "implementation of a mission carried out by a designated individual expert concerning "Expert on Digital Transformation (PRE-GOV02.b), which is part of the cooperation project "22EL03 - Next generation of digital public services" - TSI2022",
  - Provision of specialized services in cybersecurity research and development.

### **III.C. Expert Consultant**

1. Information Security Consultant for drone cybersecurity – ALTUS L.S.A.
2. External Information Security Officer – Bespot
3. Expert Consultant - European Union Agency for Cybersecurity (ENISA - CEI)
4. Experienced Cybersecurity Researcher in the project "Technological Research and Development in the Field of Cybersecurity," funded by the Ministry of Digital Governance in collaboration with the National Cyber Security Authority.
5. Conducting the Security Study for the digital interconnection of the information systems of the National Social Security Organization (e-EFKA) with the European Electronic Exchange of Social Security Information (EESSI), as part of the project "Security Study for the interconnection of e-EFKA with the European Electronic Exchange of Social Security Information (EESSI)".
6. Senior Cybersecurity Specialist in the project "Security Study of the Integrated System for Monitoring and Recording of Fishing Activities (OSPDA)".
7. Provision of specialized services as a Cybersecurity Expert in the project "Security Study for the interconnection of the National Organization for Healthcare Services (EOPYY) with the European Electronic Exchange of Social Security Information (EOPYY – EESSI)".
8. Security consultant for technical support of the upgrade of the OPS system for managing administrative justice cases (OPS).
9. Provision of specialized cybersecurity research services at the Athens University of Economics and Business (AUEB).
10. Provision of Cybersecurity Expert services in the project "Scientific Consultant for UN/ICAO Security Standards (INCAO-PKI)" on digital passport security, funded by Digital Security Technologies S.A.
11. Provision of Expert Scientific Consultant services for evaluating the compliance of the Eispraxis Information System Security Plan with the existing Information Systems Security Policy of the Ministry of Finance, the application of the Eispraxis Security Plan, and the automated vulnerability checks using specialized software, as follows: (a) Technical vulnerability assessments, (b) Penetration tests, (c) Web application security tests, and (d) Stress tests, as part of the project "Security Evaluation of the Eispraxis Information System of the Independent Authority for Public Revenue (IAPR)".
12. Senior Cybersecurity Researcher in the project "Provision of specialized research services in the field of cybersecurity," funded by the Ministry of Digital Governance in collaboration with the National Cyber Security Authority.
13. Senior ICT Security Expert in the project "Redesign of the method for evaluating the security of information systems of authorized economic operators" (funded by the General Secretariat for Information Systems).
14. Scientific expert in the project "Consulting Services for the Compliance of RAVAGO group companies with the GDPR requirements" (Private funding / RAVAGO).
15. Scientific expert in the project "Technical and managerial support to Aristotle University of Thessaloniki during the implementation of GDPR".
16. ICT Security Expert in the project "Technical certification advisor for RAE (Regulatory Authority for Energy) on ISO 27001 and ACER/NRA".

17. ICT Security Expert in the project “Scientific Consultant to OSEVEN on GDPR, ISO 27001, and security audits” (Private Funding / OSEVEN).

## Education

---

Athens University of Economics and Business

Nov. 2015

**Ph. D. @ Software Security and Critical Infrastructure Protection analysis and modeling**

- Research areas: Risk assessment, Interdependency analysis, software security, software engineering, source code analysis, vulnerability detection, critical infrastructure protection, graph theory.

Athens University of Economics and Business

January 2011

**Master of Science @ Information Systems (Grade: 8.34/10 - Scholarship)**

- Major Courses: Applied Cryptography, Computer and Network Security, Software development and Systems Architecture, Information Security and Critical Infrastructure Protection, Development of Information systems and large databases, Computer and Network Security.

University of Piraeus

July 2008

**Bachelor of Science @ Department of Informatics (Grade: 7.01/10)**

- Major Courses: Object-oriented programming, Computer design and architecture, Logical design of digital circuits, IT security, Networks.

## Sponsored R&D Projects

---

**1. Google Digital News Innovation (DNI) Fund – University of Piraeus**

*Feb. 2017 – August 2017*

Principal Investigator – R&D

“Word of Mouth” (WoM) is an *privacy-aware*, user-friendly software that will enable *fast and passive distribution of location-and-time-specific trending news* to interested users. The idea is to emulate the “mouth-to-mouth” spreading of news in a peer-to-peer manner, while at the same time fully respecting users’ location and information privacy.

- **Responsibility:** Director & lead researcher of the project. Method & algorithm development (Java), Business process analysis, Business Impact analysis, technology utilization and implementation.
- **Outcome:** Android mobile application able to passively distribute less-trending, location-and-time based news to interested users by utilizing user article searches and private proximity testing to ensure user privacy.

**2. MEAITY – University of Piraeus**

*Feb. 2017 – August 2017*

Senior Researcher

Development of methodologies and embedded security solutions for e-health services based on Internet of Things technologies. The scope of the project is the development of innovative methodologies and integrated security solutions for the protection of IoT technologies that used to provide / support real-time health services.

- **Responsibility:** Senior researcher of the project. Attack implementation and demo on process-aware attacks on medical devices.

- **Outcome:** Journal paper on analysis of IoT network protocols and their device usage. Conference paper (under peer review) on novel process-aware attacks on Type-I diabetic treatments using CGMS infusion pumps through malware.

### 3. Athens University of Economics and Business

*Dec. 2017 – Present*

#### DRASI 2 2017/18 - Principal Investigator

“Development of a risk-based interdependency analysis methodology capable to analyze large-scale traffic congestions of cargo ships between interconnected ports of the maritime network in the entire planet and provide mitigation solutions to increase traffic flow resilience. Proposed research held in cooperation with MarineTraffic Corporation”.

#### DRASI 2 2017/18 - Researcher

- Project: “Protecting critical infrastructure networks from side channel attacks on packets”
- “Despite encryption, targeted side channel attacks on encrypted packets may lead to information disclosure of functionality over encrypted TCP/IP running MODBUS RTU protocol. In this project, we presented attacks on web interfaces that implements unpadded encryption with specific block cipher modes (e.g. CFB, GCM, OFB and CTR modes) or most stream ciphers (e.g. RC4) to send MODBUS functions over TCP/IP is subject to differential packet size attacks. A major cause for this attack is the very small number of potential MODBUS commands and differences in packet sizes, which leads to distinctions in traffic”.

### 4. Athens University of Economics and Business

*Oct. 2016 – Nov. 17*

#### DRASI 2 2016/17 - Principal Investigator

Risk mitigation strategy development and analysis of Cascading failures specifically for the Transportation Sector and critical infrastructures in general. Methods based on graph theory, centrality metric analysis and fuzzy logic.

- **Responsibility:** Director and lead researcher. Method & algorithm development (Java); Graph Theory analysis; Data analysis; Feature extraction; Tool implementation.
- **Outcome:** Methodology and tools able to analyze dependencies between roads and junctions in UK’s transportation sector and predict the most critical dependency paths and most dangerous infrastructure nodes in Risk Dependency Graphs. Tool development able to propose areas for congestion mitigation.

## Certificates and Awards

## **6. Program Committee member – International Conferences**

- **ASIA Conference on Computer and Communications Security (ASIACCS 2026)**
- **ASIA Conference on Computer and Communications Security (ASIACCS 2025)**
- **30th IEEE International Symposium on On-Line Testing and Robust System Design (IOLTS 2024)**
- **29th IEEE International Symposium on On-Line Testing and Robust System Design (IOLTS 2023)**
- ***Joint Workshop on CPS & IoT Security and Privacy (CPSIoTSec 2023)***, in conjunction with the *ACM Conference on Computer and Communications Security 2023*.
- ***Joint Workshop on CPS & IoT Security and Privacy (CPSIoTSec 2022)***, in conjunction with the *ACM Conference on Computer and Communications Security 2022*.
- **International Conference on Information Security Practice and Experience (ISPEC 2022).**
- ***Joint Workshop on CPS & IoT Security and Privacy (CPSIoTSec 2021)***, in conjunction with the *ACM Conference on Computer and Communications Security 2021*.
- **11<sup>th</sup> International Conference on Critical Information Infrastructures Security (CRITIS 2016).**
